

ALULUX

s_onro® Daylight Roller Shutter

German brand with over 50 years' experience, offering a range of high-quality aluminium roller shutters, wind proof shutters and customized solutions that provide thermal, theft, privacy, and noise protection. The quality standard guarantees exceptional reliability and all-around protection for you and your home.

Made of robust, roll-formed, double-walled aluminium profiles. High level of transparency and ventilation when the roller shutter is open, and protection from the sun, light and prying eyes when it is closed. The curtain can be installed in all conventional front mounted roller shutter systems.

Specially designed profile geometry

Once the angle of elevation of the sun exceeds 23° sunro prevents direct sunlight from entering the room

Angled looking out

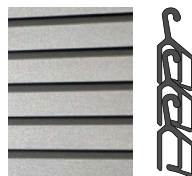

High-level of visibility from the inside looking out

Adjustable level of shades

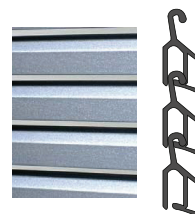

Slats shade can be stopped at any level to enhance privacy

Blind mode

Allow slots mode
